Eine zukunftsweisende Kooperation mit spannenden Partnern

Universitätsklinikum
Erlangen

- **Über 600 Studierende** haben den Studiengang begonnen
 - **Über 250 Studierende** sind zum klinischen Vollzeitstudium in Bayreuth
 - Die **ersten 28 Studierenden** haben ihr zweites Staatsexamen geschrieben und beginnen aktuell ihr „Praktisches Jahr“ im Sinne eines Übergangs in den Beruf
 - Die ersten **drei profilbildenden UBT-Professuren** sind besetzt (Prof. Heike Leutheuser: Ambient Assisted Living und Medizinische Assistenzsysteme; Prof. Claus Kuhn: RNA-Biochemie; Prof. Wilm Quentin: Planetary & Public Health)
-
- Die UBT erbringt Lehre in Gesundheitsökonomie, Prävention und Ethik
 - Erste Projekte im Schwerpunktbereich der „Gesundheitsversorgung außerhalb von Ballungsgebieten“ laufen erfolgreich („HAPpEN“ in der Adipositasprävention und „VERSORGT am ORT“ in der delegierten ärztlichen Versorgung strukturschwacher Gebiete)
 - Immer mehr Kooperationen wachsen, eine Forschungsallianz Gesundheit entsteht

Neues KI Forschungszentrum an der UBT

- **Research Center for Artificial Intelligence in Science and Society (RAIS²)**

- Das Research Center for AI in Science & Society (RAIS²) ist die zentrale Plattform zur Vermittlung von KI-Expertise an der Universität Bayreuth und vernetzt Forschende, EntwicklerInnen und AnwenderInnen von KI-Methoden über alle Fakultäten hinweg.

Wir freuen uns auf die Zusammenarbeit
und den weiteren Austausch!

Detailed information about the workshops can be found in the database. We look forward to seeing you! [...more](#)". Below this is a section titled "WiN Academy - Support for Junior Scholars of all Career Levels" with a paragraph: "Supporting junior scholars is of great importance for the University of Bayreuth. The Junior Scholar Office (WiN-UBT) accompanies all junior career levels, from doctoral candidates in the University of Bayreuth Graduate School up to tenure track professors in the WiN Academy. We are convinced that the assistance of junior scholars is fundamental for successful research. Therefore, we support all junior scholars with training, funding and guidance." Another paragraph follows: "Junior scholars face a variety of challenges: scientific excellence, data management and analysis, presentation techniques, teaching, project management and an overall high workload. Additionally, they need to decide whether to stay in academia and prepare for their career after the doctorate or postdoc. The WiN Academy offers information and a wide training programme specifically tailored to Junior Scholars and their responsibilities and aspirations." At the bottom are three small images with text: "Doctoral Candidates", "Research after Doctorate", and "Tenure-Track-Program".

External funding or third-party funding (= "**Drittmittel**") is funding that is not part of the budget of the researcher or the university, but comes from an external, third source.

External funding UBT 2023

■ Initial consultation

- Onboarding: German / European research funding
- Place project idea into the national / international „funding landscape“
- Select adequate funding programme

■ Personal support at proposal stage

- Plan application, find necessary forms, understand funding line/call
- Structure/write research proposal/address funding call
- Calculate costs (staff, equipment..)

■ Close cooperation with UBT management and administration

- Chancellor: resources needed at university, **co-financing / Eigenanteil**
- President: **Letter of Intent (LOI), Host Commitment Letter**
- Interface to HR and Finance Division

■ **Post grant support**

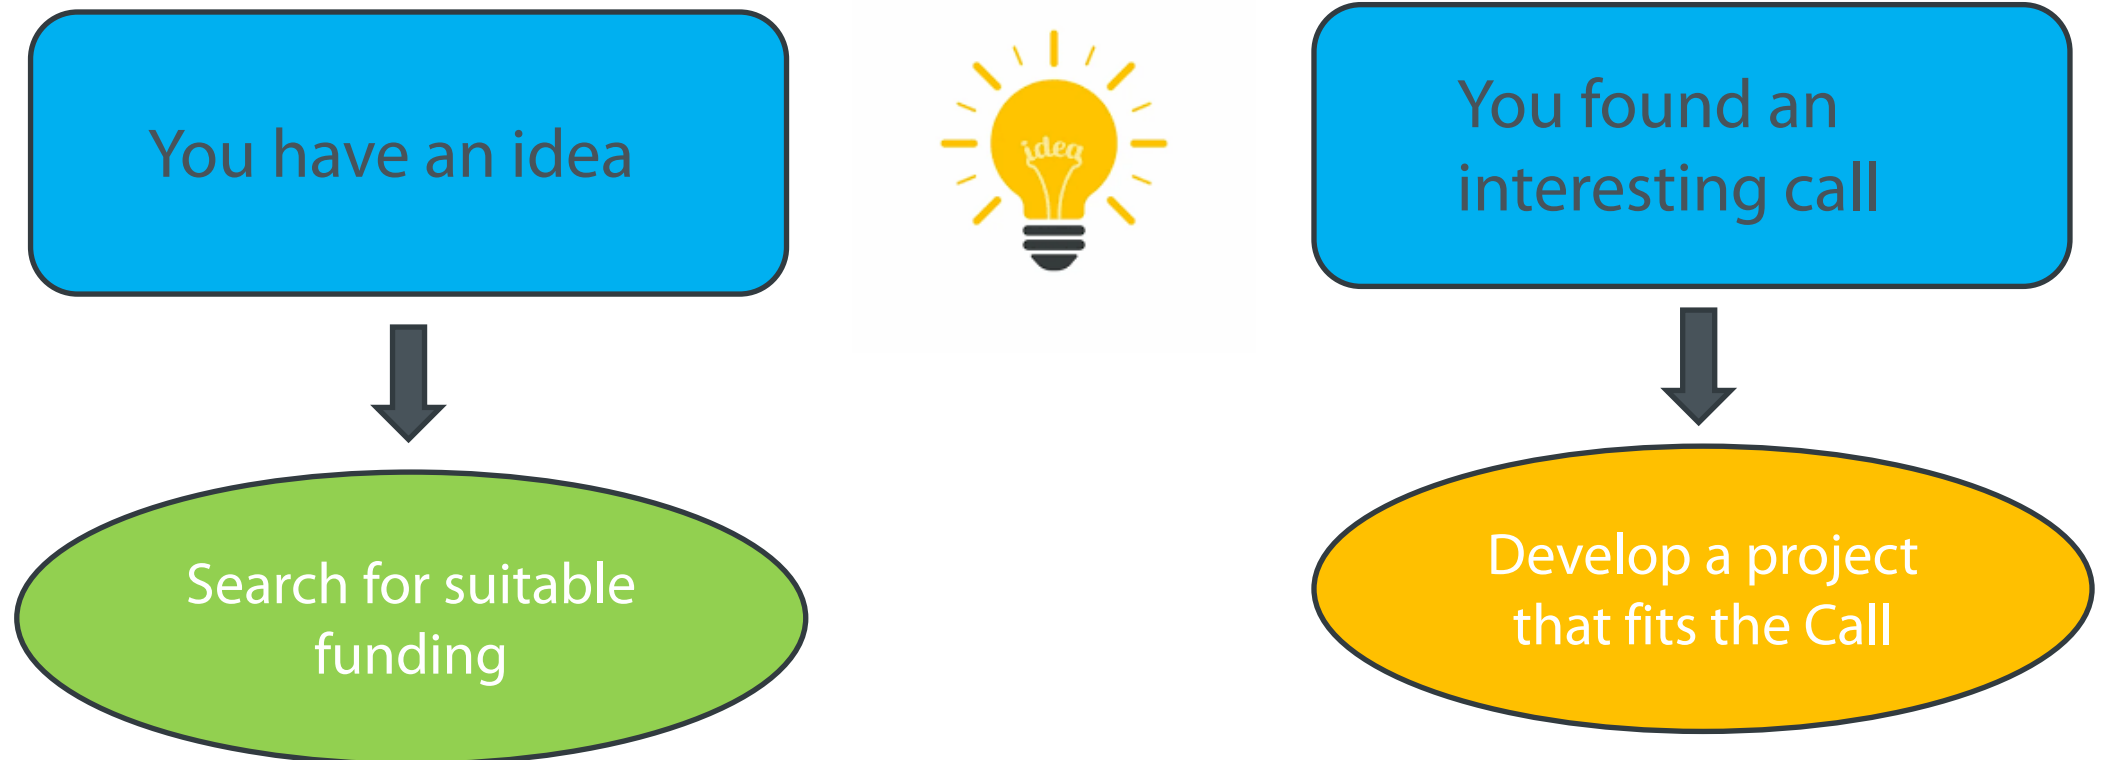

- Project implementation
- Contract management: interface to Legal Division (Ref. I-AR)
- Close cooperation with relevant central departments in all administrative processes
- EU projects: reporting

■ **Information on research funding programmes**

- Newsletter
- Workshops
- Subject- or career phase- specific presentations in departments

The screenshot shows the homepage of the 'SERVICESTELLE FORSCHUNGSFÖRDERUNG' (Research Funding Service) at the University of Bayreuth. The header includes the university logo, language options (English, Intranet), and a search bar. A green navigation bar contains the title 'SERVICESTELLE FORSCHUNGSFÖRDERUNG'. Below this, a sidebar lists navigation links: Home, Aufgaben, News, Interner Förderpool, Förderprogramme, Antragsberatung, Toolbox F, FAQs, and Team. A large yellow arrow points from the 'Förderprogramme' link in the sidebar to the 'Förderprogramme' section at the bottom of the page. The main content area features a large image of a person's head in profile, overlaid with a grid of icons representing various research fields. Text on the page includes 'Standards guter wissenschaftlicher Praxis' (Standards of good scientific practice) and 'Forschen mit kompetenter Unterstützung' (Research with competent support). The footer contains three sections: 'Förderprogramme' (Funding programs), 'Antragsberatung' (Application advice), and 'Toolbox F' (Toolbox F).

Forschen mit kompetenter Unterstützung

Herausragende Forschung braucht optimale Rahmenbedingungen. In der Servicestelle Forschungsförderung beraten und unterstützen wir promovierte Wissenschaftlerinnen und Wissenschaftler aus allen Fachbereichen der Universität Bayreuth bei der Beantragung und Abwicklung ihrer drittmittelfinanzierten Forschungsprojekte. Wir begleiten Sie von der ersten Projektidee bis zur Abgabe des fertigen Antrags und unterstützen nach Bewilligung in enger Zusammenarbeit mit den weiteren Abteilungen der Verwaltung.

The archive and the registry of the University of Bayreuth are open to anyone interested in the history of our institution."

The University Archive

The University Archives, in collaboration with the University Records and Registry team, have a shared goal: to document the history and administrative activities of the University. University of Bayreuth members can rely on our support for all inquiries related to proper record-keeping and storage, while our public archive is open to students, local educators, high school students, and residents seeking information about the University and its predecessor institutions for their research. Whether the material is in analogue or digital format, we handle its transfer, assessment, indexing, and ensure accessibility.

Are you interested in campus news, looking to actively contribute to enhancing our university's brand, or in need of assistance with public outreach?

The Press, Marketing, and Communication team is here to assist you with these matters. We offer updates on the latest developments at the University of Bayreuth through both external and internal communication channels. As experienced mediators, We are the primary contacts for journalists. In addition, we are actively involved in student and university marketing efforts, and manage our institution's corporate identity. Don't hesitate to reach out to us at: pressestelle@uni-bayreuth.de.

Service Unit PMK

Everything about press, marketing and communication

Our public relations representatives serve as the gateway to the media landscape, connecting us with the broader public.

Press and media relations

Our press relations responsibilities encompass a wide range of tasks, including drafting press releases, managing social media content, crafting magazine articles, coordinating photo shoots, curating website content, and handling PR for events. We provide comprehensive support to members of the University of Bayreuth in the realms of scientific and corporate communication, both nationally and internationally.

Our extensive network, cultivated over many years, positions us perfectly to facilitate communication between the university and media representatives. We assist you in engaging with the media and effectively showcase your expertise to the public. Additionally, we offer tailored PR support for your events.

Our domestic and international marketing strategy blends compelling content with a focused approach.

Marketing

The service unit PMK is responsible for both brand management and the ongoing development of the umbrella brand „University of Bayreuth“. Our primary mission is to implement, consult on, and support target audience-oriented, cross-channel communication initiatives related to research, campus promotion, and student marketing. Furthermore, we are actively engaged in crafting and supporting marketing campaigns and coordinating individual efforts as part of the university's overarching communication strategies.

Our scope of work also encompasses the maintenance and enhancement of the photo database, as well as the continuous evolution of the corporate design. If you're in need of merchandise, look no further – we're also your go-to team at the University Shop.

We create modern content for communication across all channels, whether online or offline.

Cross-media communication

We engage in conceptualizing and facilitating various communication formats. Among these, the website holds a central position in our cross-media communication strategy, serving as the primary point of contact for anyone interested in the University. Consequently, we place great emphasis on providing robust support and performing editorial upkeep for the website www.uni-bayreuth.de, while also offering guidance to online editors across our institution. We're more than willing to assist you in crafting and publishing your individual web pages. In addition to this, we oversee the UBT's social media channels and actively create video content, which constitutes a significant aspect of our responsibilities. To bridge the gap between online and offline communication, we design and coordinate university-wide event formats. We would be delighted to facilitate networking opportunities for you with other stakeholders.
